OF NEAR EAST PEACE DOUBTED

Hopes of Permanent Settlement Are Rapidly Dwindling

RUSSIA IS REFUSED

Conference at Lausanne Is Productive of Little Except Talk

Lausanne, Nov. 28 .- The hope of establishing a permanent peace in the Near East began to dwindle today. Serious trouble is expected from both the Turks and Russians as a result of the decision of the Allies to re ject the Russian demand for ful! membership in the conference.

Christian Rakovsky, president of the soviet of Ukrainia, and a member of the Russian peace delegation, said there was no use of Russians remaining here if they were only to be "observers" while other powers made decisions that vitally affected Russia's Black Sea coast,

While the perfunctory conference continues to appoint "buck passing" sub committees which are accomplishing little the real conference meets in Lord Curzon's apartents where the British envoy, who is attempting the Coue cure for his gout, holds long talks with the deaf Turkish envoy-Ismet Pasha-who probably has never

Among the latest arrivals is General Gassouin, French representative of the Standard Oil Interests.

In a note replying to the Russian demand for complete participation in the conference the inviting powers said they "would be most happy to admit Russia into membership on all commissions actually concerning Russia." have expressed approval of the American stand.

Russia forwarded to the near east conference an official communication asking for the right of speech on all matters before that body. Russia objects vigorously to any attempt to limit her activities in the discussion of the future status of the Dardanalles; she claims that all topics on the Lausanne agenda are closely related to the supreme object of freedom of the straits and that stable peace in the near east can be attained only by allowing the Russian delegates free participation on the same basis as the other great powers. Any decisions made without taking into consideration the immense interests of Russia, which borders on the Black sea, were condemned in advance as sterile, if a durable peace was the aim of the conference.

Borah will address a mass meeting at Boston Saturday night at which he and other prominent speakers will urge that the United States should no longer withhold recognition from the Russian soviet government.

Borah's Boston engagement will prevent his attending the bi-partisan progressive congresses here on Friday and Saturday in which Senator Lafollette, of Wisconsin, and other progressives, both Republican and Democratic will take a leading part.

Recognition of Boviet Russia is, however, an important part of the La-Follette platform, and the joint conferences are expected to go on record as demanding that the American government no longer turn its back upon the Russian people.

"There can be no genuine or lasting peace in Europe as long as a great nation like the United States treats the soviets as outcasts and refuses to recognize a government obviously supported by the great mass of the Russian people," Borah said.

"The issue cannot be dodged much longer by the state department. It is my purpose to soon direct the senate's attention to it again, and to insist that Congress at least should go on record as opposed to the United States refusing to acknowledge officially the existence of the government of a friendly nation which has already existed for several years.

Washington, Nov. 28 .- Midshipmen from the naval academy, who celebrated over-indulgently after the annual Army-Navy football game Saturday, were held up to public scorn by Secretary Denby in one of the most stinging rebukes ever administered by a secretary of the navy.

Many members of the corps, Mr. Denby declared in a public statement, not only disgraced themselves and the unform, but by their conduct at a ball which followed the game in Philadelphia brought such shame upon the academy itself as it never had known

The secretary said he did not know how many of the midshipmen "drank heavily," and was convinced that the great majority conducted themselves with propriety. #### THE WORLD DO MOVE.

A little more than eight years ago the late Claude L'Engle, representative in congress, introduced a bill in the national house of representatives appropriating \$10,000,000 to build airplanes, (they were then aeroplanes) improve them and train aviators. The bill was never heard of after its introduction in congress, dying in some committee.

But at the time the introduction of the bill was the subject of considerable newspaper comment. It was looked upon as a "crank" bill and discussed as a joke. L'Engle tried to interest the War Department in the measure but got scant consideration. The department couldn't see how it could possibly be interested in the building of airplanes, looked upon largely as a great invention useful only for exhibitions by reckless dare-devils.

About two years before L'Engle's bill was introduced in congress Robert G. Fowler flew across the continent from Los Angeles to Jacksonville. The trip took him several weeks, with a short jump each day. Hundreds of thousands of people in the southern part of the United States got their first view of an airplane as Fowler's progress was telegraphed ahead and great crowds lined his course

Following his trip across the continent Fowler gave flying exhibitions at which \$1 to \$2 was charged for the privilege of seeing him ascend and descend in his clumsy old plane. The exhibitions drew great crowds, even a circus not being "in it" with

A few months after L'Engle's bill was laughed to death in congress the great war broke out in Europe and the real development of the airplane began, and progressed until today an airplane is no more a curiosity than a horse and buggy.

Now the interest of the world is turning to real human bight-navigation of the air unaided by power of any kind. Already one man has mounted a pair of wings and flown for three hours and twenty minutes. Gliders at present are naturally of crude design. Improvements will be made in control and design and it stands to reason that if a person can remain aloft for three hours he can remain aloft for ten or twelve hours and travel great distances, keeping right on until physically exhausted

So rapidly does the world progress these days that it hardly seems possible that the congress of the United States eight years ago considered \$10,000,000 a ridiculous sum to spend on airplane development, only to appropriate hundreds of millions three years later.

### MORE INTERESTING "AD" COPY IS URGED.

Competition of "gripping news" on pages where advertising is to appear requires advertisements equally as interesting if the advertiser is to get the full value for his money, G. Lynn Summer, advertising manager of the International Correspondence Schools, Scranton, told the Association of National Advertisers,

"The advertiser in a newspaper," he said, "is competing with the greatest dramas of life which have occurred in the last twenty-four hours. There is live news around the page where he displays his advertisement. He has to compete with it. He has to make his advertisements so interesting that the eye is won away from murders, marriages, the stock exchanges and sports. "If he doesn't, he may as well not have advertised. for the

people who saw his ad did so by chance. It is possible that no real impression was made on this small percentage."

No denomination or sect will be allowed exclusive rights in great comfort to her to know that she should rub breasts and abdomen with the reserved area. It is to be so administered that any religious group desiring may maintain shrines or structures to be used by its followers for devotional purposes:

"The groves were God's first temples," and the dedication of this great forest temple to the worship of God is fitting and beautiful. It should help to promote harmony among faiths and creeds while allowing each the freedom to worship in its own way which is a fundamental American policy.

Great tracts of American soil have been set aside heretofore to promote the pleasures and the temporal interests of her people. It is good to see one wholly devoted to spiritual interests.

### HARNESSING THE FLOODS.

Engineers are studying plans for daming the tributaries of the lower Mississippi on a sufficiently large scale to hold flood waters and provide electric power for the surrounding areas. It is believed that a system can be worked out by which the waters of both tributaries and the main stream can be controlled at all seasons and the annual flood damage reduced to a minimum.

People in the regions of the south most affected by these floods have a lively interest in the plans. If the force which year after year lays waste their fields and towns could be harnessed and made to furnish electric power, it would mean all the difference between having a friendly, constructive force for a neighbor and having a hostile, destructive one

Building levees merely for the purpose of holding the streams in their banks is a passive solution of the difficulty in which the people work for the rivers. Under the new scheme the rivers would work for the people.

### DEADLY MENACE

A noted physician gave this advice to his patients: "Never neglect the slightest cold." The cold germ is a deadly menace to human life. Pneumonia, Influenza, Pleurisy and other serious sickness may result from a common cold. Rid the system of the injurious poisons that clog the bowels and intestines by taking a hot cupful of Bulgarian Blood Tea. Hot medicinal tea increases the circulation, stimulates the liver, flushes the bowels, and helps to break up a cold quickly. Bulgarian Herb Tea is sold by druggists everywhere.

### When You Catch Cold Rub on Musterole

Musterole is easy to apply and it gets in its good work right away. Often it prevents a cold from turning into "flu" or pneumonia. Just apply Musterole with the fingers. It does all the good work of grandmother's mustard plaster without the blister.

Musterole is a clean white ointment made of oil of mustard and other home simples. It is recommended by many doctors and nurses. Try Musterole for sore throat, cold on the chest, rheumatism, lumbago, pleurisy, stiff neck, bronchitis, asthma, neuralgia, congestion, pains and aches of the back and joints, sprains, sore muscles, bruises, chilblains, frosted feet-colds of all sorts. Seldom fails to deliver results. 35c and 65c, jars and tubes; hospital size, \$3.00.

rightful place in such a scene—yet \* \* \* Why is it men continue to squander when with a little or no

Some people are naturally thrifty. With them saving is second nature—but there are others—every penny they get seems to slip through their fingers, "Easy come, easy go" they try to excuse themselves All is well so long as the sun of prosperity shines, but where are they when the clouds gather and the rainy days set in? "How grand it would be if-IF-I had only saved instead of wasted" you hear Mr Easyspender remark

Realizing this condition we organized our Christmas Savings Club under the Goodman plan. With this system it is easy-very easy-to start and easy to keep up the weekly payments. Out of the "change" formerly squandered, the deposits are made—so gradually it is not missed, and at the next Christmas a plump check is ready. Interest helps to increase the amount of the deposits, and, more than anything else, the habit of systematic saving is formed.

People Notice It. Drive Them Off with Dr. Edwards' Olive Tablets

A pimply face will not embarrass you much longer if you get a package of Dr. Edwards' Olive Tablets. The skin should begin to clear after you have taken the tablets a few nights. Cleanse the blood, bowels and liver

with Dr. Edwards' Olive Tablets, the successful substitute for calomel; there's no sickness or pain after taking them.

Dr. Edwards' Olive Tablets do that which calomel does, and just as effectively, but their action is gentle and safe instead of severe and irritating.

No one who takes Olive Tablets is ever cursed with a "dark brown taste," a bad breath, a dull, listless, "no good" feeling, constipation, torpid liver, bad

disposition or pimply face.
Olive Tablets are a purely vegetable compound mixed with olive oil; you will know them by their olive color. Dr. Edwards spent years among patients afflicted with liver and bowel

complaints and Olive Tablets are the immensely effective result. Take one or two nightly for a week. See how much better you feel and look. 15c and 30c.

Some people are naturally thrifty. With them saving is second nature-but there are others-every penny they get seems to slip through their fingers, "Easy come, easy go" they try to excuse themselves All is well so long as the sun of prosperity shines, but where are they when the clouds gather and the rainy days set in? "How grand it would be if-IF-I had only saved instead of wasted" you hear Mr Easyspender remark

Realizing this condition we organized our Christmas Savings Club under the Goodman plan. With this system it is easy-very easy-to start and easy to keep up the weekly payments. Out of the "change" formerly squandered, the deposits are made—so gradually it is not missed, and at the next Christmas a plump check is ready. Interest helps to increase the amount of the deposits, and, more than anything else, the habit of systematic saving is formed.

Living memorials to the World war dead generally are being adopted in 'Avenues of Remembrance" by club women in many sections of the state. They form patriotic "answer to the challenge that the heroic light of the nation's World war sacrifice is fading

in the march of time and progress.' While other cities and communities of Ohio have planted memorial trees, Lima club women have set a new record in this respect by making of the tree planting a memorable event in which practically all the federate clubs in northwestern Ohio had a part More than 500 club leaders attended. Lima's 'lasting shrine to the soldier dead of Allen county" is in two rows of trees on both sides of West road, from the north to the south entrance of the State hospital grounds, the dedication took place during the recent gathering there of the Northwest District conference members of the Ohio Federation of Women's Clubs.

Using the same trowel, which Mrs Warren G. Harding had when she officiated at the first memorial tree planting in Washington, Mrs. John E. McCue, mother of William Paul Gallagher, Allen county's first sacrifice in the great war, threw the first bit of earth around the first tree planted, followed by representatives of the American Legion, Grand Army of the for Allen county's seven soldiers who were lost at sea. At each end of this "Avenue of Remembrance" has been placed a bronze tablet. Later it is planned to extend the trees for a distance of several miles. DVANCING age with its 1 subdued ambitions and strivings could be made very happy if only good health accom-panied it, and the basis of good health, as every-

one learns upon reaching the age of 60, is the regular daily move-ment of the bow-els. If it can be effected through the food you eat, the water you drink and the ex-

so much the better. But if nature will not operate it must be assisted or sickness will follow. Neglected constipation causes the blood pressure to go up 28 per cent, and that is the forerunner of hardening of the arteries. It makes rheumatism and gout

The ideal constipation remedy for people of advancing years is Dr. Caldwell's Syrup Pepsin, a vegetable compound of Egyptian senna and pepsin with pleasant-tasting aromatics. It is gentle and mild, and does not cramp or gripe. It is a mistake to think you need a violent salt or powder or pill, calomel, coal-tar drugs and such things. They purge and world.

ANY FAMILY MAY TRY IT FREE

Thousands of parents are asking themselves, "Where can I find a trustworthy laxative that anyone in the family can use when constipated?" I urge you to try Syrup Pepsin. ### The Finest Model "45" Buick Ever Built

The 1923 Buick "45" has taken the country by storm. Always a favorite, this model reaches the highest pinnacle of value

Stand off and note the snappy lines, the higher hood, the full crown fenders, sturdy artillery wheels, drum-type head and cowl lamps, the low khaki-lined top. Then sit in the car. Here is comfort equalled only in the costliest automobiles.

The upholstery and trimmings are of the finest quality, the instrument board is equipped with richly finished instruments, the control lever is at finger's end, the cowl ventilator control and windshield wiper are within easy reach.

Test the new rear cantilever springs—you will be amazed at the difference in riding comfort. Lock the handy transmission control and know that this feature, with others, gives Buick a low rating by insurance underwriters. Even the famous Buick Valve-in-Head motor shows important changes - higher cylinder block, larger connecting rods and pistons, larger crankshaft, with pres-

## COLLINS IS POSTMASTER AT SPRINGFIELD IS WORD

Among the nominations for postmasterships made by President Harding, Monday, was that of Joseph M. Collins, superintendent of the Clark County puble schools, to be postmaster of Springfield. Mr. Collins was indorsed for the position by the Republican executive committee, and last week was recommended by Senator-elect S. D. Fess. The position pays \$6,000 a year.

Mr. Collins will take charge of the office as soon as his commission arrives from Washington, which will probably be Tuesday or Wednesday.

### This Laxative Works Fine on Old People

Thousands have kept themselves healthy with Dr. Caldwell's Syrup Pepsin

DVANCING age with its A subdued ambitions and strivings could be made very happy if only good health accompanied it, and the basis of good health, as every-

one learns upon reaching the age of 60, is the regular daily move-ment of the bow-els. If it can be effected through the food you eat, the water you drink and the ex-

so much the better. But if nature will not operate it must be assisted or sickness will follow. Neglected constipation causes the blood pressure to go up 28 per cent, and that is the forerunner of hardening of the arteries. It makes rheumatism and gout

The ideal constipation remedy for people of advancing years is Dr. Caldwell's Syrup Pepsin, a vegetable compound of Egyptian senna and pepsin with pleasant-tasting aromatics. It is gentle and mild, and does not cramp or gripe. It is a mistake to think you need a violent salt or powder or pill, calomel, coal-tar drugs and such things. They purge and world.

ANY FAMILY MAY TRY IT FREE Thousands of parents are asking themselves, "Where can I find a trust-worthy laxative that anyone in the family can use when constipated?" I urge you to try Syrup Pepsin. I will gladly provide a liberal free sample bottle, sufficient for an adequate test. Write me where to send it. Address Dr. W. B. Caldwell, 515 Washington St., Monticello, Illinois. Do it now!

weaken you, and their reaction tends to make you more constipated than before.

Now try the milder method. Dr. Caldwell's Syrup Pepsin does not lose its good effect with repeated use, and increased doses are unnecessary. Mrs. E. M. Burgess of Enfield, N. C., who is 73, keeps herself in good health with it, and Mr. Charles Chorman of Stapleton, Staten Island, N. Y., of Stapleton, Staten Island, N. Y., wasted fifteen years and considerable money on other remedies before finding steady relief with

Syrup Pepsin. Use Dr. Caldwell's Syrup Pepsin yourself the next time you suffer from constipation, biliousness, headache, sleeplessness, indigestion, piles or night cramps. Many thousands of elderly people use nothing else, and it costs them less than a cent a dose. Druggists have sold it successfully for 30 years, and it is the most widely bought family laxative in the

Jennie had been gone but a few moments, and I was standing at the window, when I saw a taxie stop at the curb. Mrs. Page alighted and follow Orange Custard ing her was a tall, lanky woman carry.

> I slipped into my room. She desired to run things. I would let her. I had the house than I had been doing to help Jennie.

> "Doreen," Mrs. Page called. "Yes," I replied, stepping into the hall.

> "This is Mary Fagan. I have hired her. Mary, this is Mrs. Page, my son's wife. She will show you your room, and the kitchen."

> "Come this way?" I said quietly, noting the sour-faced middle aged woman, so different from Jennie. I showed her her room, told her

I bit my lips to keep back a smile and looked enquiring at my motherin-law

"I'll talk to you after luncheon," she said to Mary.

The luncheon was well cooked but she had given us only what was prac tically ready-had broiled the chops and made a salad. But we invariably, since Mrs. age's advent, had either toast or hot biscuits of some sort for luncheon. She never ate cold bread. There was no dessert, Jennie always fixed something simple, a custard, or a hot gingerbread for us

"Bring a jar of jam," I told Mary when she informed me she had nothing more. But Mrs. Page declared she didn't care for it, and I meekly followed her from the room.

Dinner was better. But her sour face caused Walter to say it took away his appetite and ask where Jennie was.

"Your mother insisted I discharge her. She was very kind and found Mary," said in a pleasant voice.

"Oh, well, I suppose I don't know anything about such things, but I'd rather have Jennie's good natured face around and less to eat, than that cross looking creature. I'll bet, she
